DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 19, 2005 has been entered.

The application contains 15 claims, numbered 8-22. Claims 1-7 have been cancelled.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

Claims 8-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The first tier face and the second tier face claimed here are not disclosed in the specification. Page 6, paragraph 22, recites a first tier left face (426), a first tier right face (430), and a second tire left face (444) and a second tier right

face (448). Further, the specification does not recite the first tier left wall being triangular.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hunnicutt (5,052,649), Osborn (6,543,637) and Thomas (6,533,233) show devices of interest. The last two show crushable means.
